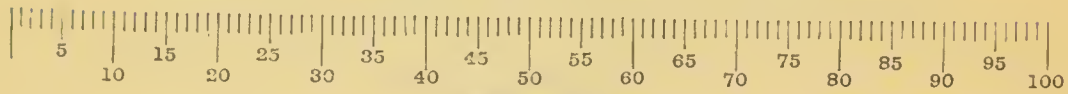
THE SIZE OF

COINS AND MEDALS

(The closing number or that following name of coin)

In this Catalogue, is given in Millimeters.



(*Millimeters.*)

There are no duplicates in any lot unless so mentioned specially.

⁂ Cut on first page of cover, represents type of lot 707, differing only in the reversing of the legend on obverse.

⁂ There are no electrotypes, false copies, imitations or counterfeit pieces of any kind in this sale. We adhere to this invariable rule in all our sales — public or private.

⁂ Catalogues of this Sale, containing two plates, with the prices realized, in red ink, 75 cents.

⁂ The first day's sale will end with Lot 465.

⁂ The proofs of the two plates before us show one to be much inferior to the other, and injustice is done to nearly all the pieces on it. Particularly do we desire to state that the Dimes of 1796 and 1800 and the Half Dollars of 1794, 1797 and 1801 are in better preservation than there represented.

The two pieces in the preceding lot are so alike in character, outline of design and execution, that there seemingly can be no doubt that *both* are the work of Wright

In this connection we are strongly impressed that Edward Hulseman, also of New York City, who worked from 1837 to 1841, cut the dies of the others in this series which bear the letter H on the water line, below the bow.

CANADA.

865 1820. Bust of George IV. *r.* Above, TOKEN; below, date. R/ Beaver on a marsh *r.* Above, NORTH WEST; below, COMPANY. Border of dots on either side, within slightly raised edge. Edge, obliquely milled in centre. Very good. Holed above head, as were also the three other specimens we have seen (two of which in Europe), and the one here offered, is superior in condition to any of them. These, with the one mentioned by Mr. McLachlan in his work published in 1886, make a total of five known to us. Probably the rarest Canadian coin, token or medal. Brass, 28½.
